

A LIGHT-GRADE EROSION CONTROL AND GRASS ESTABLISHMENT MAT

JUTE BIODEGRADABLE EROSION CONTROL MAT (FINE)

100%

**organic and
biodegradable
fibres**

**Promotes
plant
growth**

**Can withstand
water flow
up to**

**1.3
seconds**

Jute Mat Fine is a light-grade erosion control matting, made from natural jute fibres that are 100% biodegradable over time. It effectively acts as a blanket to protect topsoil and seed from water and wind erosion while promoting a moist micro-climate for seed germination.

BENEFITS OF JUTE MAT FINE

- Provides an ideal environment for seed germination by retaining moisture at the soil level
- Protects the soil from erosion, while allowing the seeds to germinate and grow through the matting
- Can be subjected to water flows of up to 1.3 metres per second
- Acts as a roll-on mulch, adding organic matter to the soil as it breaks down
- Acts as a blanket to prevent loss of seed by wind, water and birds
- Ideal for revegetation and can be used to suppress weed growth
- 100% organic natural fibres which are biodegradable over a six-month period, and will not entangle or endanger wildlife
- Reduces heat absorption to help protect plants
- Flexible and strong, allowing for foot traffic while being laid
- Convenient to use and handle as it is lightweight

APPLICATIONS

Jute Mat Fine is a natural mulch mat for grass establishment and erosion control, ideal for:

- Roadside landscaping
- Golf courses
- Steep slopes
- Wetlands and riverbanks
- Coastal sites

Jute Mat Fine is ideal for the stabilisation of low-flow drainage lines and assists grass establishment on batters of up to

JUTE MAT FINE RANGE

Code	Roll Size	m ²
JUTEL-183025	1.83m x 25m	45.75
